AAACE AURORA – EDMONTON SECTION

A NOTE FROM OUR BOARD

The AAACE Edmonton Section started the 2019/2020 season with some great presentations at our October 10th Dinner Meeting by Mostafa AbdelRazik and Wisam Fawzi. We are looking forward to the next one already and are hopeful that you will be able to attend!

If you or your team have suggestions for future topics or have a topic that you would like to share at a future presentation or a workshop, please reach out to us and share your thoughts.

DINNER MEETING – 10TH OCTOBER 2019

TOPIC: USE OF LINEAR SCHEDULING IN TRANSMISSION POWER LINES IN ALBERTA CANADA

Mostafa AbdelRazik shared his experiences with linear scheduling on projects that he has worked on and the challenges he has faced using conventional scheduling software prior to transitioning his scheduling to Tilos software. He also showed us some of the reporting functionality and various ways the program could be used to gather and report on additional information such as weather graphs.

TOPIC: BUSINESS INTELLIGENCE FOR CONSTRUCTION

Business Intelligence (BI) increases projects' productivity and efficiency and Wisam Fawzi explained just how this is done. He showed us how effectively, data is captured from singular or multiple sources and then mapped in order to begin to review, monitor and identify trends. These trends assist in strategizing and making intelligent business decisions.
